ABOUT OPPO MEDICAL FOOTCARE & INSOLES

Established in Seattle Washington in 1997, OPPO Medical has built a powerful network of affiliate companies in America and Asia, and has more than 70 distributors worldwide. In addition to an extensive range of orthopedic supports, we specialize in the field of foot care where we provide a series of gel and silicone products.

OPPO Medical has developed product range of FOOTCARE and INSOLES for fast pain relief and for better foot health. The series of FOOTCARE products is to bring relief from pain caused by corns, calluses, overlapping toes, and ingrown toenails. INSOLES aid in regulating the distribution of pressure exerted by the weight of the body on the foot to help relieve pain and fatigue in the feet, legs and lower back, which are caused by prolonged standing or walking. Replacement insoles help reduce impacts on joints and vertebral columns, and lessen the strain on ligaments, muscles and Achilles tendon. "Step in comfort" is the ultimate goal of OPPO Medical FOOTCARE & INSOLES.

ABOUT MATERIAL

Human feet are a complex structure to support the body during activities such as walking, running, exercising or standing. Improper walking mode, poor fitting shoes, or standing or walking for extended periods of time could change its structure, cause discomfort or pain. OPPO Medical offers sophisticated FOOTCARE & INSOLES products, using fine materials, such as silicone, gel and foam, to provide a better relief and protection for the toe, metatarsal, arch, heel, and foot.

Common Foot Symptoms

Toe

- Bunions
- Hallux valgus
- Corn
- Toe deformities

Forefoot

- Metatarsalgia
- Neuroma

Arch

- Plantar fasciitis
- Arch collapse

Heel

- Heel spur
- Heel pain
- Achilles tendinitis

SILICONE

It is made of 100% medical grade silicone. Silicone is considered to be the traditional top-of-the-line material for direct contact with the body, providing good shock resistance and shear force absorption. Its resilience makes Silicone products extremely durable. Silicone is non-allergenic and available in soft to hard densities.

GEL

It is made of medical grade, non-allergenic gel. Available in soft to medium durometer, Gel provides the flexibility to conform easily to bony prominence of the body, such as heels and toes. The special characteristics of Gel is great elasticity and can be applied in many functional designs.

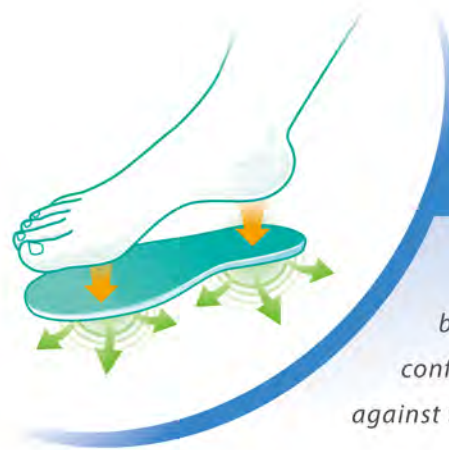

FOAM

Foam is formulated for shock absorption, comfort, cushioning, and injury prevention. Bonded with other materials such as magnets, far-infrared fabric, foam can be used as a base to enhance the massaging effect or to increase blood circulation.

Insoles Series

Insoles Series combines ergonomics design and superior materials to provide a first defense line of external impact on the feet. Insoles Series distributes the pressure of body weight on the feet when walking, jumping, running or standing for a long time. By absorbing undue impact, Insoles Series helps prevent ligament tear, muscle strain, and Achilles tendonitis. Insoles Series provides an overall buffer and pressure relief while taking care of various foot symptoms.

Pedi-relief Series

Pedi-relief Insoles series is designed for reducing weight bearing, shock absorbency and elimination of undue friction while conforms to the bony prominence of the foot to reduce skin abrasion against the shoes.

5706 GEL ARCH CUSHIONS

ONE SIZE
GEL

INDICATION
Plantar fasciitis,
Heel spur,
Shock absorption

- Provide better pressure equalization and weight distribution in the metatarsal and heel areas.
- Built-in arch for proper foot alignment.
- Help reduce and absorb shock with each step.
- Top cloth for comfort and moisture transport.

5408 SOFT STEP SILICONE INSOLES

N1, N2, N3, N4, N5
SILICONE

INDICATION
Pressure redistribution,
Heel pain,
Foot fatigue,
Prolonged standing,
Shock absorption

- Dual density silicone insoles absorb impact on the ankle, knee, and hip joints, as well as provide cushioning during motions.
- Softer inserts in the metatarsal and heel areas for cushioning and pressure relief.
- Reduce peak loading and eliminate painful irritation.
- Help to regulate the distribution of pressure on the foot.
- Top cloth for comfort and moisture transport.

5406 TENDER SILICONE INSOLES

N1, N2, N3
SILICONE

INDICATION
Pressure redistribution,
Foot fatigue,
Prolonged standing,
Shock absorption

- Made of medical-grade, bacteria resistant silicone that does not dry out.
- May help realign foot and ankle bones, and improve balance and posture.
- Top cloth for comfort and moisture transport.
- Full length silicone insoles with top cloth for optimum comfort.

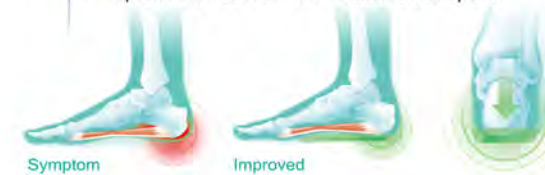

5709 WAFFLE COMFORT ARCH SUPPORTS

M, L
GEL

INDICATION
Heel pain,
Plantar fasciitis

- Provide superior weight distribution and pressure equalization throughout the entire foot.
- Provide more cushioning and pressure relief to the heel areas.
- Help reduce and absorb shock with each step.
- Top cloth for comfort and moisture transport.

Waffle cushion structure

5707 WAFFLE SUPPORT GEL INSOLES

MEN, WOMEN
GEL

INDICATION
Heel pain,
Foot fatigue,
Metatarsalgia

- Provide superior cushioning and advanced arch support.
- Offer additional stability and prevent pressure and shock impact.
- Provide relief and comfort from pressure to the heel and metatarsals.
- Top cloth for comfort and moisture transport.

Waffle cushion structure

5708 WAFFLE COMFORT GEL INSOLES

MEN, WOMEN
GEL

INDICATION
Foot fatigue,
Prolonged standing

- Provide superior weight distribution and pressure equalization throughout the entire foot.
- Help relieve pain and fatigue in feet, legs and lower back from prolonged standing or walking.
- Top cloth for comfort and moisture transport.

Waffle cushion structure

About Waffle Cushion Structure

Pedi-relief Insoles Series combines waffle pattern cushion with ultimate shock absorbing material to perform equal pressure distribution and extraordinary pressure relief, aiming to provide superior weight distribution and exceptional shock absorption.

Functional Series

Functional Insoles Series covers biomechanical insoles, specifically designed for people who suffer from functional disabilities, providing optimal comfort and great support by releasing pressure and stabilizing the feet.

5404 SILICONE INSOLES 3/4 LENGTH

N1, N2, N3
SILICONE

INDICATION
Longitudinal and transverse arch support, Pressure redistribution, Heel pain, Shock absorption

- Softer green inserts help relieve pressure and pain on the heel and metatarsal areas.
- Massaging effect of the silicone helps improve blood circulation.
- Offer rearfoot stability and support the longitudinal arch.
- Provide shock absorption to the foot.

5401 SILICONE ELASTMAX INSOLES

N1, N2, N3, N4, N5
SILICONE

INDICATION
Longitudinal and transverse arch support, Pressure redistribution, Heel pain, Foot fatigue, Prolonged standing, Shock absorption

- Dual density silicone insoles absorb impact on the ankle, knee, and hip joints, as well as provide cushioning during motions.
- Softer inserts in the metatarsal and heel areas.
- Reduce peak loading and eliminate painful irritation for cushioning and pressure relief.
- Help regulate the distribution of pressure on the foot.

5407 SILICONE ELASTMAX INSOLES

N1, N2, N3, N4, N5
SILICONE

INDICATION
Longitudinal and transverse arch support, Pressure redistribution, Heel pain, Foot fatigue, Prolonged standing, Shock absorption

- Softer comfort areas at pressure points of the foot.
- Offer relief and comfort from pressure to the heel and metatarsals.
- Help regulate the distribution of pressure on the foot.
- Superior shock absorption to relieve and prevent heel, joint and back pain.

5410 STEP EASY FULL LENGTH INSOLES

S, M, L, XL
SILICONE

INDICATION
Heel pain, Foot fatigue, Prolonged walking

- Raised green area offers rearfoot stability and supports the longitudinal arch.
- Help relieve foot pain and fatigue from prolonged standing or walking.
- Provide shock absorption to the foot and prevent heel strike.

5010 ARCH SUPPORT INSOLES

S, M, L
FOAM

INDICATION
Plantar fasciitis, Flexible flat foot, Heel pad atrophy, Prolonged standing, Pressure redistribution

- Provide great support on longitudinal arch.
- Cupped design offers additional heel stability and prevents pressure and shock impact.
- Accessory foam pads in the metatarsal and heel areas for cushioning and pressure relief.

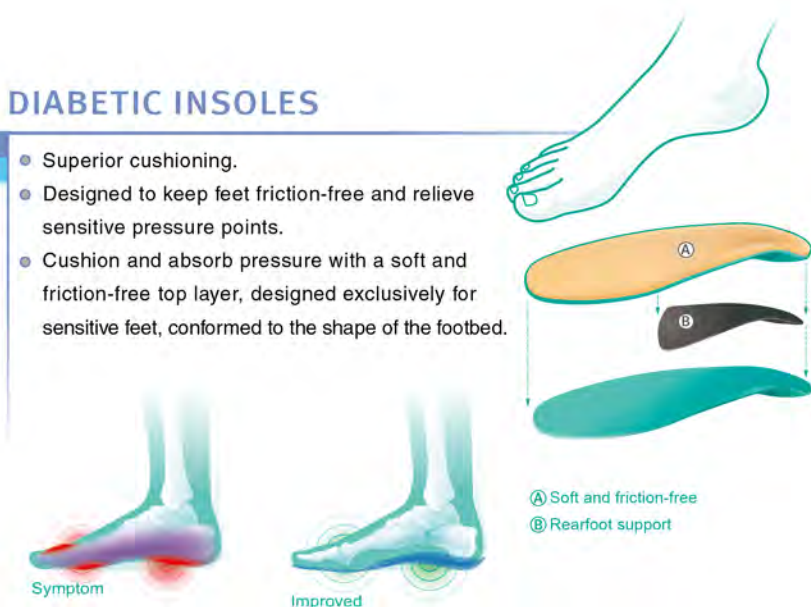

5011 DIABETIC INSOLES

S, M, L
FOAM

INDICATION
Diabetics, Circulation dysfunction, Sensitive feet

- Superior cushioning.
- Designed to keep feet friction-free and relieve sensitive pressure points.
- Cushion and absorb pressure with a soft and friction-free top layer, designed exclusively for sensitive feet, conformed to the shape of the footbed.

About the Eco-friendly Material

Eco-friendly Insoles use patented POLISPORT® material which is made of recycled composition. They are not only recyclable, bio-degradable, non-toxic but harmless to the environment. Therefore with our eco-friendly insoles we can maintain the sustainability of our Earth together.

5016 ECO-FRIENDLY ORTHOTIC INSOLES

S, M, L
FOAM

INDICATION
Plantar fasciitis,
Flexible flat foot,
Foot fatigue

- Eco-friendly POLISPORT® material is selected for its recyclability and reusability.
- Rearfoot support orthotics cradle the heel and provide ultimate arch support without restricting toes movement.
- Reinforced cupped design offers additional stability.
- Top cloth cover and breathable POLISPORT® material provide great comfort.

A Eco-friendly POLISPORT® material
B Rearfoot support orthotics

High Heels Series

High Heels Insoles Series is specifically designed for ladies wearing high heels all day long. It helps reduce the pressure on the ball of foot by balancing the uneven pressure while wearing high heels.

5703 SLIM GEL INSOLES

ONE SIZE
GEL

INDICATION
Metatarsalgia,
Heel pain,
Foot fatigue,
Shock absorption

- Waffle pattern cushion provides superior weight distribution and pressure equalization.
- Ultra slim 3/4 length design to fit in high heels or open shoes.
- Relieve pressure on heel and metatarsal areas.
- Adhesive backing to secure insoles firmly inside shoes.
- Top cloth for comfort and moisture transport.

5702 COMFORT GEL INSOLES

ONE SIZE
GEL

INDICATION
Metatarsalgia,
Heel pain,
Foot fatigue,
Shock absorption

- Waffle pattern cushion provides superior weight distribution and pressure equalization.
- Ultra slim 3/4 length design to fit comfortably in high-heel shoes.
- Relieve pressure and shock impact on heel and metatarsal areas.
- Adhesive backing to secure insoles firmly inside shoes.

5405 METATARSAL INSOLES

N1, N2, N3
SILICONE

INDICATION
Transverse
arch support,
Pressure redistribution,
Shock absorption

- Raised metatarsal pads support transverse arch and help redistribute pressure on forefoot area.
- Slim design to fit comfortably in high-heel shoes.

5409 SILICONE INSOLES

N1, N2, N3
SILICONE

INDICATION
Transverse
arch support,
Heel pain,
Pressure redistribution,
Shock absorption

- Raised metatarsal pads support transverse arch and help redistribute pressure on forefoot area.
- Relieve pressure and shock impacts on the heel.
- Slim design to fit comfortably in high-heel shoes.
- Heel pads for shock absorption.

Symptom

Improved

Daily Comfort Series

Daily Comfort Insoles Series helps eliminate friction between the shoes and the bottom of foot while providing excellent moisture wicking for breathability. The contoured design ensures optimal fit and offers flexible application.

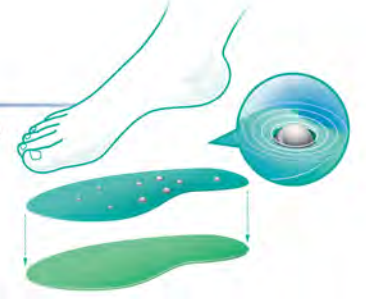

5601 MAGNETIC INSOLES

S, M, L
FOAM

INDICATION
Foot fatigue

- Magnetic inserts provide healthy stimulation to help improve blood circulation.
- Patented breathable foam for excellent shock absorption.

5017 ECO-FRIENDLY SLIM INSOLES

S, M, L
FOAM

INDICATION
Foot fatigue,
Heel pain

- Eco-friendly POLISPORT® material is selected for its recyclability and reusability.
- 3/4 design for easy fit.
- Arch and heel cushions offer additional support.
- Top cloth cover and breathable POLISPORT® material provide great comfort.

Symptom

Improved

5003 ARCH INSOLES

S, M, L
FOAM

INDICATION
Foot fatigue

- Built-in arch for proper foot alignment and top cloth for comfort and moisture transport.
- Air permeable insoles fight odor even after long-term use.

Symptom

Improved

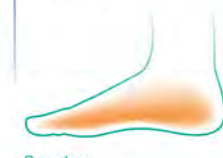

5002 MASSAGE AIR INSOLES

ONE SIZE
FOAM

INDICATION
Foot fatigue

- Massaging dots on footbed help improve blood circulation and comfort.
- Patented breathable foam for excellent shock absorption.

About the Eco-friendly Material

Eco-friendly Insoles use patented POLISPORT® material which is made of recycled composition. They are not only recyclable, bio-degradable, non-toxic but harmless to the environment.

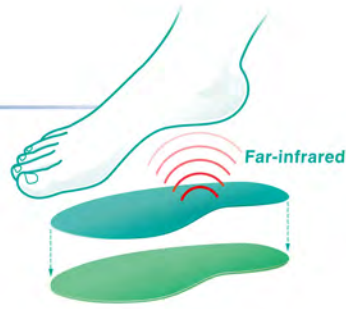

5501 BIOCERAMIC INSOLES

ONE SIZE
FOAM

INDICATION
Foot fatigue

- Emitted far-infrared rays enhance cell renewal to relief pain associated with nervous system disorders.
- Made with active ceramic powder to improve blood circulation.
- Patented breathable foam for excellent shock absorption.

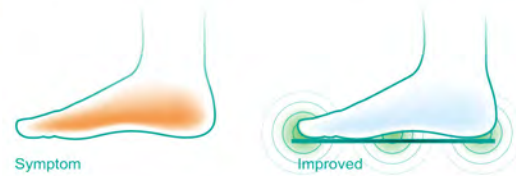

5001 CUSHION AIR INSOLES

ONE SIZE
FOAM

INDICATION
Foot fatigue

- Patented breathable foam for excellent shock absorption.
- Soft cloth liner for added comfort and moisture transport.

5015 ECO-FRIENDLY COMFORT INSOLES

N1-N7
FOAM

INDICATION
Foot fatigue,
Heel pain

- Eco-friendly POLISPORT® material is selected for its recyclability and reusability.
- Dual densities provide excellent forefoot flexibility while offering great support to the rearfoot.
- Extra cushioning on forefoot and heel for better shock absorption.
- Top cloth cover and breathable POLISPORT® material provide great comfort.

Ⓐ Great rearfoot support
Ⓑ Extra cushion

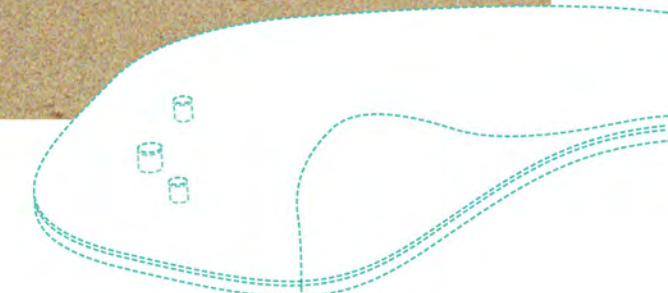

Footcare Series

Footcare Series is made of high quality silicone, gel and foam material. It provides comfortable protection for the feet and helps relieve pressure; effectively eliminate irritation, inflammation and pain. Footcare Series is especially helpful for foot conditions such as plantar fasciitis, heel pain, metatarsalgia or hallux valgus. Footcare Series features contoured design and light weight material to improve shoe-wearing comfort and relieve foot symptoms.

About the Eco-friendly Material

Eco-friendly Insoles use patented POLISPORT® material which is made of recycled composition. They are not only recyclable, bio-degradable, non-toxic but harmless to the environment.

Heel Series

Heel Series is designed to provide soft cushioning with lightweight material for the heel and Achilles tendon to relieve stress and sudden impact while provide comfort for the painful areas.

5466 PLANTAR FASCIITIS RELIEVER

PATENTED

Indication
Plantar fasciitis, Heel pain

Material
Silicone

Size
S, M, L, XL

Before
Heel strain (or pain) caused by plantar fasciitis

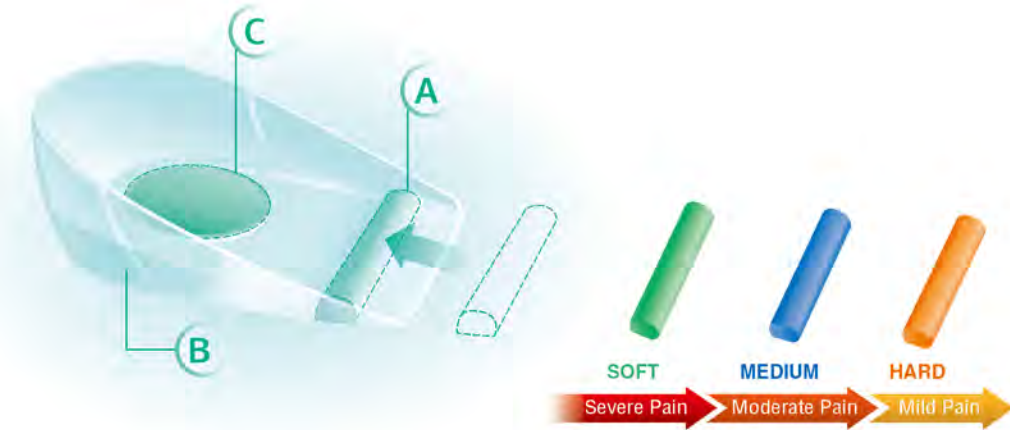

After
Pain relief via massage effect by the silicone bars

Plantar Fasciitis Reliever is an innovative design with a set of three interchangeable silicone bars in different densities, for patients to customize the level of massage to relieve the surrounding soft tissues. The patented silicone bars set in front of the heel bone, work like taping, to help with arch alignment and lower tension on the plantar fascia, thus redistributing the load and preventing the plantar fascia from over stretching or over loading.

Using three densities of silicone bars from soft to hard, the trigger point of the feet gets precise level of massage to help relieve tight calf muscles and assist in rehabilitation. Plantar Fasciitis Reliever is made of medical grade, non-allergenic silicone, relieving plantar tension continuously during the day.

Product Features

A Interchangeable Silicone Bars are made of 100% medical grade silicone with 3 densities from **soft (green)**, **medium (blue)** to **hard (orange)**, representing different massage levels from gentle, neutral to strong.

The patented interchangeable bars provide different levels of massage to the tissues surrounding the heel bone. For an optimum relief of plantar fascia, patients can choose the silicone bars with the right massage level based on the severity of plantar fasciitis.

B The reinforced heel cups provide superior impact absorption for the rearfoot, soothe pain and inflammation caused by plantar fasciitis. They also help keep feet from valgus and varus, as well as reduce stress and fatigue caused by improper posture.

C Pressure-relieving soft pads are designed to absorb heel impact directly and relieve plantar tension. The pads eliminate related symptoms of plantar fasciitis and allow patients to continue their routine activities without suffering.

5451 SILICONE HEEL CUSHIONS

N1, N2, N3, N4
SILICONE
QTY: 1 PAIR
INDICATION
Heel pain,
Heel spur,
Plantar fasciitis,
Pressure redistribution,
Shock absorption

- Silicone heel cup is designed to help correct body alignment and improve heel stability.
- Wedge-shaped heel cushions reduce the strain on Achilles tendon.
- Can be used in normal or athletic shoes.
- Easy to clean and long lasting.
- Extra soft green gel helps relieve pressure and pain on the most sensitive area of the plantar fascia.
- Provide superior support, comfort, and shock absorption.
- Help reduce heel pain and impact on joints.

5454 SILICONE HEEL CUSHIONS

N1, N2, N3, N4
SILICONE
QTY: 1 PAIR
INDICATION
Heel pain,
Pressure redistribution,
Shock absorption

- Softer green pads provide additional pain relief and redistribute pressure away from painful areas.
- Superior shock absorption to relieve and prevent heel, joint and back pain.
- Silicone heel cup is designed to help correct alignment and improve heel stability.

5463 HEEL PADS

N1, N2, N3
SILICONE
QTY: 1 PAIR
INDICATION
Heel pain,
Pressure redistribution,
Shock absorption

- Superior shock absorption to relieve and prevent heel, joint and back pain.
- A softer cushion, anatomically positioned at the heel, provides additional relief and redirects pressure away from painful areas.
- Help regulate the distribution of pressure on the foot.

5452 HEEL CUSHIONS

N1, N2, N3
SILICONE
QTY: 1 PAIR
INDICATION
Heel pain,
Plantar fasciitis,
Shock absorption,
Pressure redistribution

- Extra soft green gel insert at medial side of the heel helps relieve pressure and pain from heel spurs or plantar fasciitis.
- Special low profile shape cushion offers support, comfort, and shock absorption.

5460 HEEL PADS WITH REMOVABLE PADS

S, M, L
SILICONE
QTY: 1 PAIR
INDICATION
Heel spur,
Heel pain,
Shock absorption,
Pressure redistribution

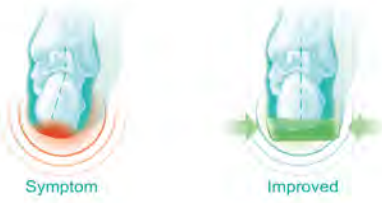

- Flexible application, wear with pad insert to increase support for the heel; wear without pad to improve shock absorption.
- Help reduce impact on joints and vertebral column.
- Reduce strain on ligaments, muscles and Achilles tendon.

5453 HEEL CUPS

S, M, L
SILICONE
QTY: 1 PAIR
INDICATION
Heel pain,
Plantar fasciitis,
Valgus (outward) or varus (inward) alignment of the heel,
Shock absorption

- Superior shock absorption to relieve and prevent heel pain.
- A softer pad, anatomically contoured at the heel, provides additional cushioning.
- Help regulate the distribution of pressure on the foot.
- Posted to help correct varus and valgus alignment at the heel.

5462 HEEL PADS

S, M, L
SILICONE
QTY: 1 PAIR
INDICATION
Heel pain,
Pressure redistribution,
Shock absorption

- Grid design and center positioning provide additional cushioning, reducing pain and pressure.
- Help regulate the distribution of pressure on the foot.
- Superior shock absorption to relieve and prevent heel, joint and back pain.

5464 U-SHAPE HEEL SPUR PADS

S, M, L
SILICONE
QTY: 1 PAIR
INDICATION
Heel pain,
Heel spur

- U-shape design helps correct alignment of the foot and provide heel stability.
- Reduce pain caused by heel spur or heel pain.
- Provide additional comfort and redirect pressure away from painful area.

- Leather cover for comfort.
- Protect heel area from rubbing.
- Self-adhesive backing for easy positioning inside your shoes and avoiding slippage.

Arch Series

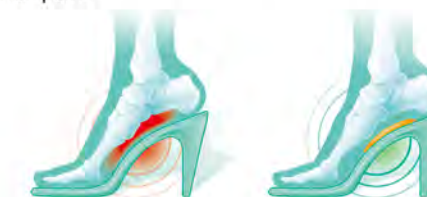

Arch Series provides firm support for the arch against the structural imbalance in the foot and helps absorb shock while walking or standing to relieve strain on the muscles of the foot.

5459 ARCH PADS

ONE SIZE
SILICONE
QTY: 1 PAIR
INDICATION
Arch support,
Pressure redistribution,
Shock absorption

- Help support the arch, absorb shock, reduce friction and improve overall foot comfort.
- Improve the stability of the foot and prevent arch pain.

Symptom

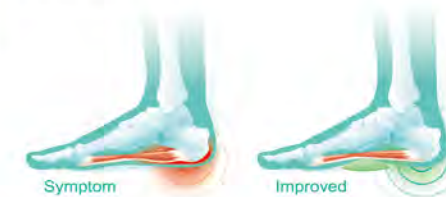

Improved

6750 ARCH PADS

S, M, L
GEL
QTY: 1 PAIR
INDICATION
Arch pain,
Plantar fasciitis

- Control the position of the foot and prevent arch pain.
- Help absorb shock, reduce friction and improve overall foot comfort.

Symptom

6950 ARCH BANDAGE

ONE SIZE
FOOTCARE
QTY: 1 PC
INDICATION
Arch pain,
Plantar fasciitis,
Foot fatigue

- Designed to help flat foot and improve foot function.
- The elastic support fits comfortably around the arch.
- For relief of plantar fasciitis.

Forefoot Series

Forefoot Series assists in relieving discomfort of metatarsals, preventing overload pressure, and helping shock absorption. The contoured design facilitates the usage and allows for long-term wear in daily use.

6480 METATARSAL PADS

S/M, L/XL
SILICONE
QTY: 1 PAIR
INDICATION
Metatarsalgia,
Irritating calluses,
Morton's toe,
Shock absorption

- Specifically designed to treat forefoot soreness, and as a preventative device for those who stand long hours on their feet.
- Provide shock absorption to the metatarsal heads and help relieve metatarsal pain.
- Reduce the adverse effects of weight bearing and alleviate painful rubbing and friction on walking.

6481 METATARSAL PADS

S/M, L/XL
SILICONE
QTY: 1 PAIR
INDICATION
Metatarsalgia,
Irritating calluses,
Morton's toe,
Shock absorption

- Provide proper support to the metatarsal heads and help relieve metatarsal pain.
- Help prevent calluses and inflammation of the forefoot.

6442 METATARSAL PADS

S/M, L/XL
GEL
QTY: 1 PAIR
INDICATION
Metatarsalgia,
Irritating calluses,
Morton's toe,
Shock absorption

- Provide proper support to the metatarsal heads and help relieve metatarsal pain.
- Help prevent calluses and inflammation of the forefoot.

6761 SANDAL BALL CUSHIONS

ONE SIZE
GEL
QTY: 1 PAIR
INDICATION
Toe protector

- Reduce friction between toes and sandals or slippers.
- Increase foot stability and reduce slipping in shoes.

6722 HALLUX VALGUS PADS

ONE SIZE
GEL
QTY: 1 PAIR
INDICATION
Hallux valgus
Sesamoiditis

- Designed to regulate the pressure on big toe.
- Help relieve pain on the first MP joint caused by hallux valgus.
- Effective for hallux valgus and sesamoiditis.

6774 PROTECTED PADS

ONE SIZE
GEL
QTY: 2 PCS
INDICATION
Calluses,
Soft corn,
Morton's toe

- Prevent blisters and rashes.
- Soothe pain due to calluses.
- Provide shock absorption to metatarsal area.
- Self-adhesive backing to keep product firmly in place.

6783 GEL METATARSAL PADS

ONE SIZE
GEL
QTY: 1 PAIR
INDICATION
Metatarsalgia,
Pressure redistribution,
Transverse arch collapse

- Help reduce and absorb shock with each step.
- Support metatarsal arch to reduce pressure and relieve pain.
- Raised pad provides compression to decrease pressure.
- Self sticking for easy positioning in shoes.

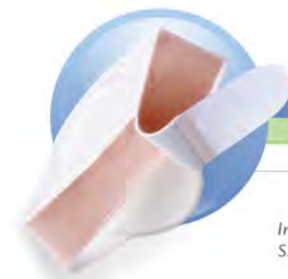

6782 METATARSAL FOOT PADS

S/M, L/XL
GEL

QTY: 1 PAIR

INDICATION
Metatarsalgia,
Calluses,
Shock absorption

- The covered soft gel pad molded on elastic sleeve adapts to the shape of the feet.
- Gel metatarsal pads cushion and protect the sore metatarsal area.
- Help prevent calluses and inflammation of the forefoot.

6780 GEL METATARSAL BANDAGE

ONE SIZE
GEL

QTY: 1 PC

INDICATION
Metatarsalgia,
Irritating calluses,
Shock absorption

- Protects the metatarsal heads and helps relieve metatarsal pain.
- Helps prevent calluses and inflammation of the forefoot.

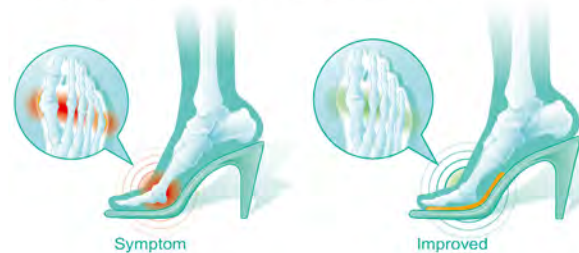

6482 FOREFOOT PADS

ONE SIZE
SILICONE

QTY: 1 PAIR

INDICATION
Metatarsalgia,
Irritating calluses,
Shock absorption

- Indented grid design to prevent slippage inside the shoe.
- Top cloth for comfort and moisture transport.
- Provide comfort and cushioning to alleviate foot pain caused by forefoot imbalance.
- Help regulate the distribution of pressure on the foot and provide superior shock absorption.

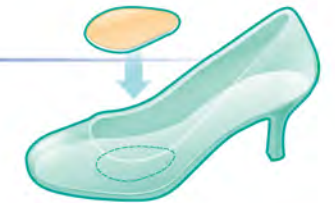

6781 BALL OF FOOT GEL PADS

ONE SIZE
GEL

QTY: 1 PAIR

INDICATION
Metatarsalgia,
Irritating calluses,
Shock absorption

- Support and help redistribute pressure on forefoot area.
- May be used to treat metatarsalgia.

6081 RAISED METATARSAL PADS

S, M, L
FOAM

QTY: 1 PAIR

INDICATION
Metatarsalgia,
Morton's neuroma

- Leather covered raised metatarsal pad designed to support the metatarsal arch.
- Help correct metatarsal bones in neutral position.
- Provide proper support to reduce pressure and relieve pain on metatarsal area.
- Position support for a custom fit.
- Self-adhesive backing for easy positioning in shoes.

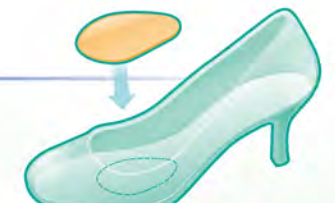

6080 FOAM BALL OF FOOT PADS

ONE SIZE
FOAM

QTY: 1 PAIR

INDICATION
Metatarsalgia,
Shock absorption,
Irritating calluses

- Provide cushioning to reduce pressure.
- May be used to treat metatarsalgia.

Toe Series

Toes Series is designed to relieve friction and irritation between toes caused by constant impact and to help align overlapping toes resulting from excessive pressure.

6920 HALLUX VALGUS NIGHT STRAP

ONE SIZE FOOTCARE
QTY: 1 PC
INDICATION
Hallux valgus

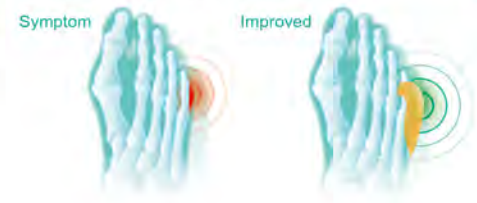

- Corrects hallux alignment during sleep effectively.
- Flexible, washable strap with hook and loop closure for easy application and adjustment.
- Helps relieve pain associated with bunion.
- Universal design for right or left foot.

6426 5TH TOE BUNION PROTECTOR

S/M, L/XL
SILICONE
QTY: 1 PC
INDICATION
Little toe varus,
Little toe bunions

- Protector fits the contour of toe and toe joint.
- Helps relieve pain and pressure over the bunionette area.
- Prevents callus over the fifth toe.

6741 GEL BUNION SLEEVE

S, M, L
GEL
QTY: 1 PC
INDICATION
Painful, sensitive
part of the big toe,
Bunions

- When the hallux (big toe) experiences pressure, sleeve maintains big toe in a proper position, distributing weight more evenly.

6425 TOE CRESTS

S, M, L
SILICONE
QTY: 1 PAIR
INDICATION
Calluses,
Hammer toes

- Prevent callosities and hammer toes.
- Stretch contracted toes.
- Help reduce pressure and pain caused by hammer, claw and mallet toes.

6441 TOE CRESTS

S, M, L
GEL
QTY: 1 PAIR
INDICATION
Calluses,
Hammer toes

- Prevent callosities and hammer toes, and stretch contracted toes.
- Help reduce pressure and pain caused by hammer, claw and mallet toes.

6423 HALLUX STRAIGHTENERS

S, M, L
SILICONE
QTY: 2 PCS
INDICATION
Hallux valgus,
Overlapping toes,
Calluses

- Help realign hallux valgus deformities by preventing the big toe from overlapping onto the second.
- Prevent and reduce pain caused by calluses and ingrown toenails.

6420 HALLUX STRAIGHTENERS

S, M, L
GEL
QTY: 2 PCS
INDICATION
Hallux valgus,
Overlapping toes,
Calluses

- Help realign hallux valgus deformities by preventing the big toe from overlapping onto the second.
- Prevent and reduce pain caused by calluses and ingrown toenails.

6443 HALLUX VALGUS PROTECTOR

S/M, L/XL
SILICONE
QTY:1PC
INDICATION
Painful, sensitive
part of the big toe,
Bunions

- When the hallux (big toe) experiences pressure, the pad adjusts itself to the contour of the MP(Metatarsophalangeal) joint, distributing weight more evenly.

6760 SANDAL TOE SEPARATORS

ONE SIZE
GEL
QTY:2PCS
INDICATION
Toe protector

- Reduce friction between toes and sandals or slippers.

6740 GEL BUNION CUSHION

ONE SIZE
GEL
QTY:1PC
INDICATION
Painful, sensitive
part of the big toe,
Bunions

- Slim and lightweight.
- Pad adjusts itself to the contour of toe and toe joint.
- Relieves bunion pressure.

6422 RETRACTORS

S, M, L
GEL
QTY:2PCS
INDICATION
Overlapping toes,
Calluses

- Prevent overlapping of toes.
- Reduce pain caused by interdigital pressure.
- Fit comfortably without inhibiting range of motion.

6440 HALLUX VALGUS PROTECTOR

S/M, L/XL
GEL
QTY:1PC
INDICATION
Painful,
sensitive part
of the big toe,
Bunions

- Pad adjusts itself to the contour of toe and toe joint.
- Relieves bunion pressure.

6421 GEL TOE SEPARATORS

S, M, L
GEL
QTY:2PCS
INDICATION
Overlapping toes,
Calluses

- Prevent overlapping of toes.
- Reduce pain caused by interdigital pressure.
- Fit comfortably without inhibiting range of motion.

6424 RETRACTORS

S, M, L
SILICONE
QTY:2PCS
INDICATION
Overlapping toes,
Calluses

- Prevent overlapping of toes.
- Reduce pain caused by interdigital pressure.
- Fit comfortably without inhibiting range of motion.

6021 FOAM RETRACTORS

S, M, L
FOAM
QTY:6PCS
2PCS FOR EACH SIZE
INDICATION
Overlapping toes,
Calluses

- Prevent overlapping of toes and reduce pain caused by interdigital pressure.
- Fit comfortably without inhibiting range of motion.

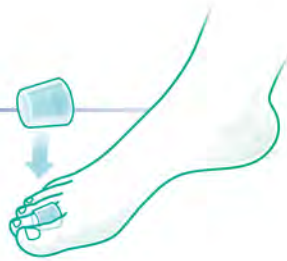

6720 GEL DIGITAL RINGS

S/M, L/XL
GEL
QTY:2PCS
INDICATION
Calluses,
Hammer toes,
Claw toes

- Aid circulation and alleviate toe pain.
- Provide cushioning for toe against friction.
- Help prevent toe injuries caused by constant impact.

Elastic Sleeve Series

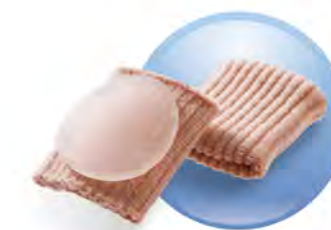

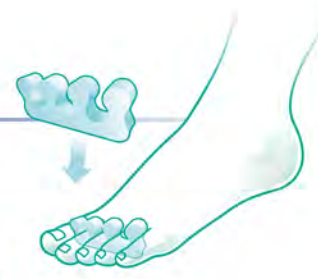

Elastic Sleeve Series is made of highly-flexible fabric while designed to protect skin from friction or irritation. It can help reduce discomfort caused by skin problems and relieve pain.

6723 GEL TOE COMBS

ONE SIZE
GEL
QTY:2PCS
INDICATION
Overlapping toes,
corns

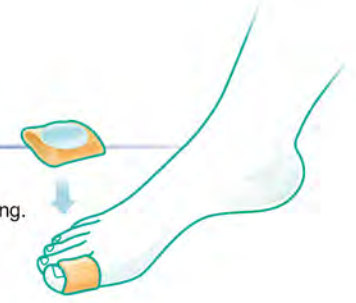

- Designed to prevent overlapping of toes.
- Reduce pressure and friction on the toes.

6700 GEL DIGITAL PADS

S, M, L
GEL
QTY:1"(2.54CM)/2PCS
INDICATION
Calluses,
Hammer toes,
Claw toes

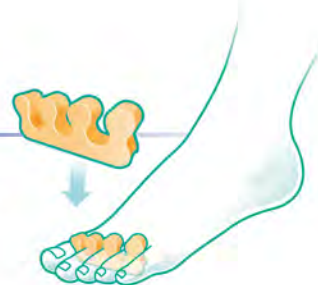

- Digital pads are on a tube.
- Soothe all lesions caused by pressure or rubbing.
- Reduce pain caused by calluses, blisters, soft corns and hammer toes.

6022 MULTI TOE COMBS

ONE SIZE
FOAM
QTY:2PCS
INDICATION
Overlapping toes,
corns

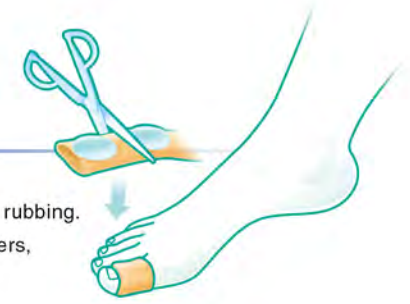

- Designed to prevent overlapping toes.
- Reduce pressure and friction on the toes.

6701 GEL DIGITAL PAD ON A STRIP

S, M, L
GEL
QTY:24"(61CM)/1PC
INDICATION
Calluses,
Hammer toes,
Claw toes

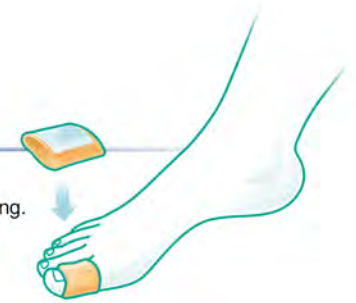

- Digital pads on a strip.
- Soothes lesions caused by pressure or rubbing.
- Reduces pain caused by calluses, blisters, soft corns and hammer toes.

6702 GEL ELASTIC SLEEVE (HALF COATED)

S, M, L
GEL
QTY:1"(2.54CM)/2PCS
INDICATION
Calluses,
Hammer toes,
Claw toes

- Half coated with gel.
- Soothe all lesions caused by pressure or rubbing.
- Reduce pain caused by calluses, blisters, soft corns and hammer toes.

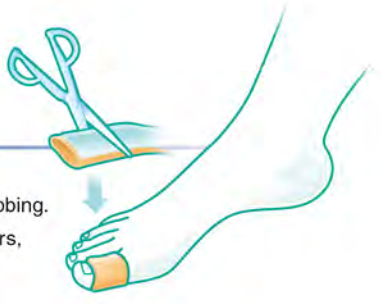

6703 TUBULAR PAD (LONG)

S, M, L
GEL
QTY: 24" (61CM) / 1PC
INDICATION
Calluses,
Hammer toes,
Claw toes

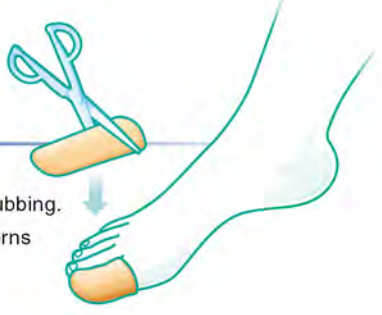

- Lined with gel on one side.
- Soothes lesions caused by pressure or rubbing.
- Reduces pain caused by calluses, blisters, soft corns and hammer toes.

6704 GEL TOE CAPS

S, M, L
GEL
QTY: 2PCS
INDICATION
Calluses,
Hammer toes,
Claw toes

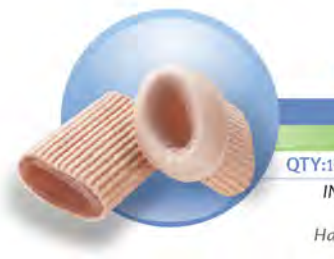

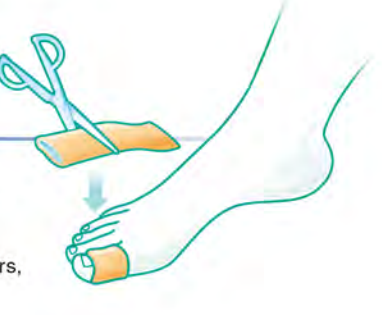

- Lined with gel coating.
- Soothe blisters caused by pressure or rubbing.
- Reduce pain caused by calluses, soft corns and hammer toes.
- Apply to both finger and toe.

6705 GEL CUSHION

S, M, L
GEL
QTY: 5 7/8" (15CM) / 1PC
INDICATION
Calluses,
Hammer toes,
Claw toes

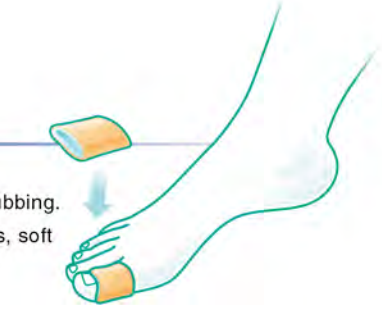

- Fully lined gel tube.
- Soothes lesions caused by pressure or rubbing.
- Reduces pain caused by calluses, blisters, soft corns and hammer toes.

6706 GEL TOE SLEEVES

S, M, L
GEL
QTY: 1 1/2" (3CM) / 3PCS
INDICATION
Calluses,
Hammer toes,
Claw toes

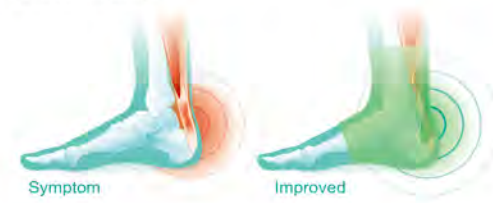

- Fully coated with gel inside the shoe.
- Soothe lesions caused by pressure or rubbing.
- Reduce pain caused by calluses, blisters, soft corns and hammer toes.

6770 ACHILLES PROTECTION PAD

S/M, L/XL
GEL
QTY: 1PC
INDICATION
Achilles tendonitis,
Achilles tendon swelling,
Shock absorption

- Gel coated on the Achilles tendon.
- Soothes and softens skin.
- Reduces pain caused by friction between footwear and the back of the heel and Achilles tendon.

6791 MALLEOLAR SLEEVE

ONE SIZE
GEL
QTY: 1PC
INDICATION
Malleolar protection,
Heel pain

- Gel pads help protect against shock, vibration and irritation.
- Relieves pressure and pain on medial and lateral malleolus.
- Gel pad designed to position over heel or on the dorsal side of the foot to absorb shoelace bite.

6790 GEL HEEL SOCKS

ONE SIZE
GEL
QTY: 1PAIR
INDICATION
Heel pain,
Heel skin chap,
Shock absorption

- Gel coated on the heel.
- Soothe and soften skin.
- Reduce pain caused by friction between heel and ankle.

Universal Series

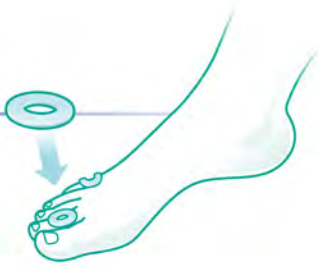

Universal Series helps prevent or soothe the pressure by reducing the friction and allows for universal application in different areas of the foot, suffering from discomfort due to pressure or friction.

6474 OVAL CORN PADS

ONE SIZE
SILICONE
QTY:9PCS
INDICATION
Calluses,
Soft corn,
Sensitive area

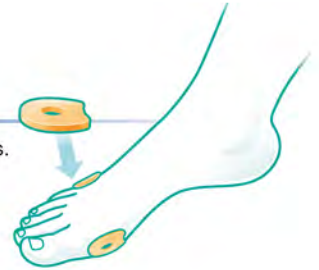

- Protect against pressure on localized foot areas.

6020 FOAM OVAL CORN PADS

ONE SIZE
FOAM
QTY:6PCS
INDICATION
Calluses,
Soft corn,
Sensitive area

- Protect against pressure on localized foot areas.

6070 FOAM PROTECTIVE PADS

ONE SIZE
FOAM
QTY:4PCS
INDICATION
Calluses,
Sensitive area,
Soft corn

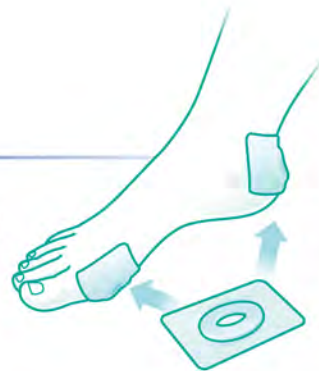

- Prevent blisters and rashes.
- Soothe pain due to calluses.

6473 ADHESIVE CORN PADS

ONE SIZE
SILICONE
QTY:4PCS
INDICATION
Calluses,
Soft corn,
Sensitive area

- Protect against pressure on the spot.
- Reduce friction and protect any sensitive area in the foot.
- Comfortably stay in place inside socks and hosiery without taking up shoe space.

6060 FOAM STRIPS

ONE SIZE
FOAM
QTY:8PCS
INDICATION
Friction prevention

- Prevent red marks and painful blisters.

6472 PROTECTIVE PADS

ONE SIZE
SILICONE
QTY:4PCS
INDICATION
Calluses,
Sensitive area,
Bunions

- Prevent blisters and rashes.
- Soothe heel pain.

Retailer Support - Promotional Items

OPPO Medical has designed three types of promotional display racks to be demonstrated at retail channels for Footcare and Insoles Series aiming to attract customers' attention while boost sales volume by the fine images they conveys for both the brand OPPO Medical and the products they carry. Please contact our sales representatives for more information and store display assistance.

D5 Display Rack
(Ground Display)

- For Footcare & Insoles Series
- Height: 145cm
- Width: 40cm
- Depth: 32.5cm

D8 Table Top Display Rack
(Counter Display)

- For Footcare & Insoles Series
- Height: 58 cm
- Panel: 25W x 40H cm

D9 Table Top Display Rack
(Counter Display)

- For Footcare Series
- Height: 58 cm
- Panel: 25W x 40H cm
